- Custom Designed systems are available to suit individual application.
- Optional side tables, in-feed chutes, diverters and conveyor tie-ins are available on request.
- Specified cut outs in the outer rail can be accommodated to customers specifications.
- A number of different options are available.

The 1600 series wash down turntable was designed specifically for a wide range of industries: such as pharmaceutical, food manufacturing, ready meals, bottling, canning, bag pack-off and many more.

The 1600 turntable can be used for product sortation, accumulation as well as directional change.

The Eaglestone 1600 turntable is available in sizes ranging from 2' ft. diameter to 10' ft. diameter. The standard table top is 7ga (.1875") thick stainless steel with solid UHMW-PE support wheels for quiet, smooth operation.

Adjustable levelers with easy clean channel legs.
